

Dear Sirs:

I am writing concerned about the LPFM svc being proposed. There are many listeners of K-Love (listener supported FM station) in my community. It would be a huge blow to our community if KLOVE was endangered by this issue. Through this station, we have one of a very few family oriented channels to listen to. I have raised my children listening to this channel, as well as many, confident that they can listen and never hear anything that I or others would find offensive in this "adult entertainment" oriented world. Please consider this plea. In appreciation, Liz Sager Odessa, TX
